

# ENSIGN POND ROAD OVER MILL BROOK

**B.I.N 3372000**

## Overview:

This project was funded by a \$1,000,000 Culvert NY grant that replaced the existing culvert carrying County Road 4 (Ensign Pond Road) over Mill Brook. The existing crossing consisted of two 60'-0" long, 72" and 60" dia. corrugated metal pipes. The existing culverts were installed after the 2019 Halloween Storm as an emergency measure to reopen the road to traffic, when the structure that was in place washed out. The existing structure was replaced with a 38ft long by 29ft wide Precast Slab Bridge.

## Quick Facts:

**Location**— Town of Moriah, Ensign Pond Road

**Dept. of Public Works Superintendent:** James Dougan

**Project Manager:** Andrew Stanley

**Construction Dates:** April 2024—October 2024

**Featured Crossing:** Mill Brook

**Designed by:** H&T Engineering

**Contractor:** ING Civil Inc.

**Funding Source:** Bridge NY (Culvert NY)

### Project Cost:

H&T Engineering – **\$ 128,870.68**

ING Civil- **\$ 867,117.34**

Project Grand Total- **\$ 995,988.02**

**Structure Type:** 38' Precast Concrete Slab Units

**Precast Manufacturer:** J.P. Carrara and Sons
